

INSIGHT

CORDLESS LIGHTING

2026

Uncompromising Craftsmanship, *Timeless* Luxury

At Insight, illumination is never merely functional—it is atmospheric, emotive, and transformative. We design lighting for hoteliers, restaurateurs, and designers who understand that ambience defines experience.

Light shapes mood and elevates spaces, yet it must perform with quiet reliability—seamless, intuitive, and enduring. This philosophy guides every cordless lamp we create, purpose-built for the exacting demands of hospitality.

For over a decade, Insight has redefined cordless lighting, uniting timeless design, effortless usability, and considered sustainability. Our passion lies not simply in making lamps, but in illuminating moments that linger long after the light has dimmed.

Nigel Fawkes
Chief Executive Officer

Best of British, *Designed* in the UK

Proudly designed in the United Kingdom, our products uphold the highest standards of quality, integrity, and sustainability. Celebrated for design excellence, our collections are trusted by leading five-star brands and acclaimed industry professionals worldwide—each a testament to our commitment to lighting that is as enduring as it is beautiful.

Design that Adapts, Endures, Evolves

From the beginning, our lamps have been built on modular principles — ensuring flexibility, easy servicing, and effortless customisation so each piece can adapt and evolve with its environment.

Assurance Beyond the Light

Every cordless lamp includes a two-year warranty and dedicated after-sales support — ensuring exceptional design, reliable performance, and ongoing service long after installation.

Smart Recharging, Simplified

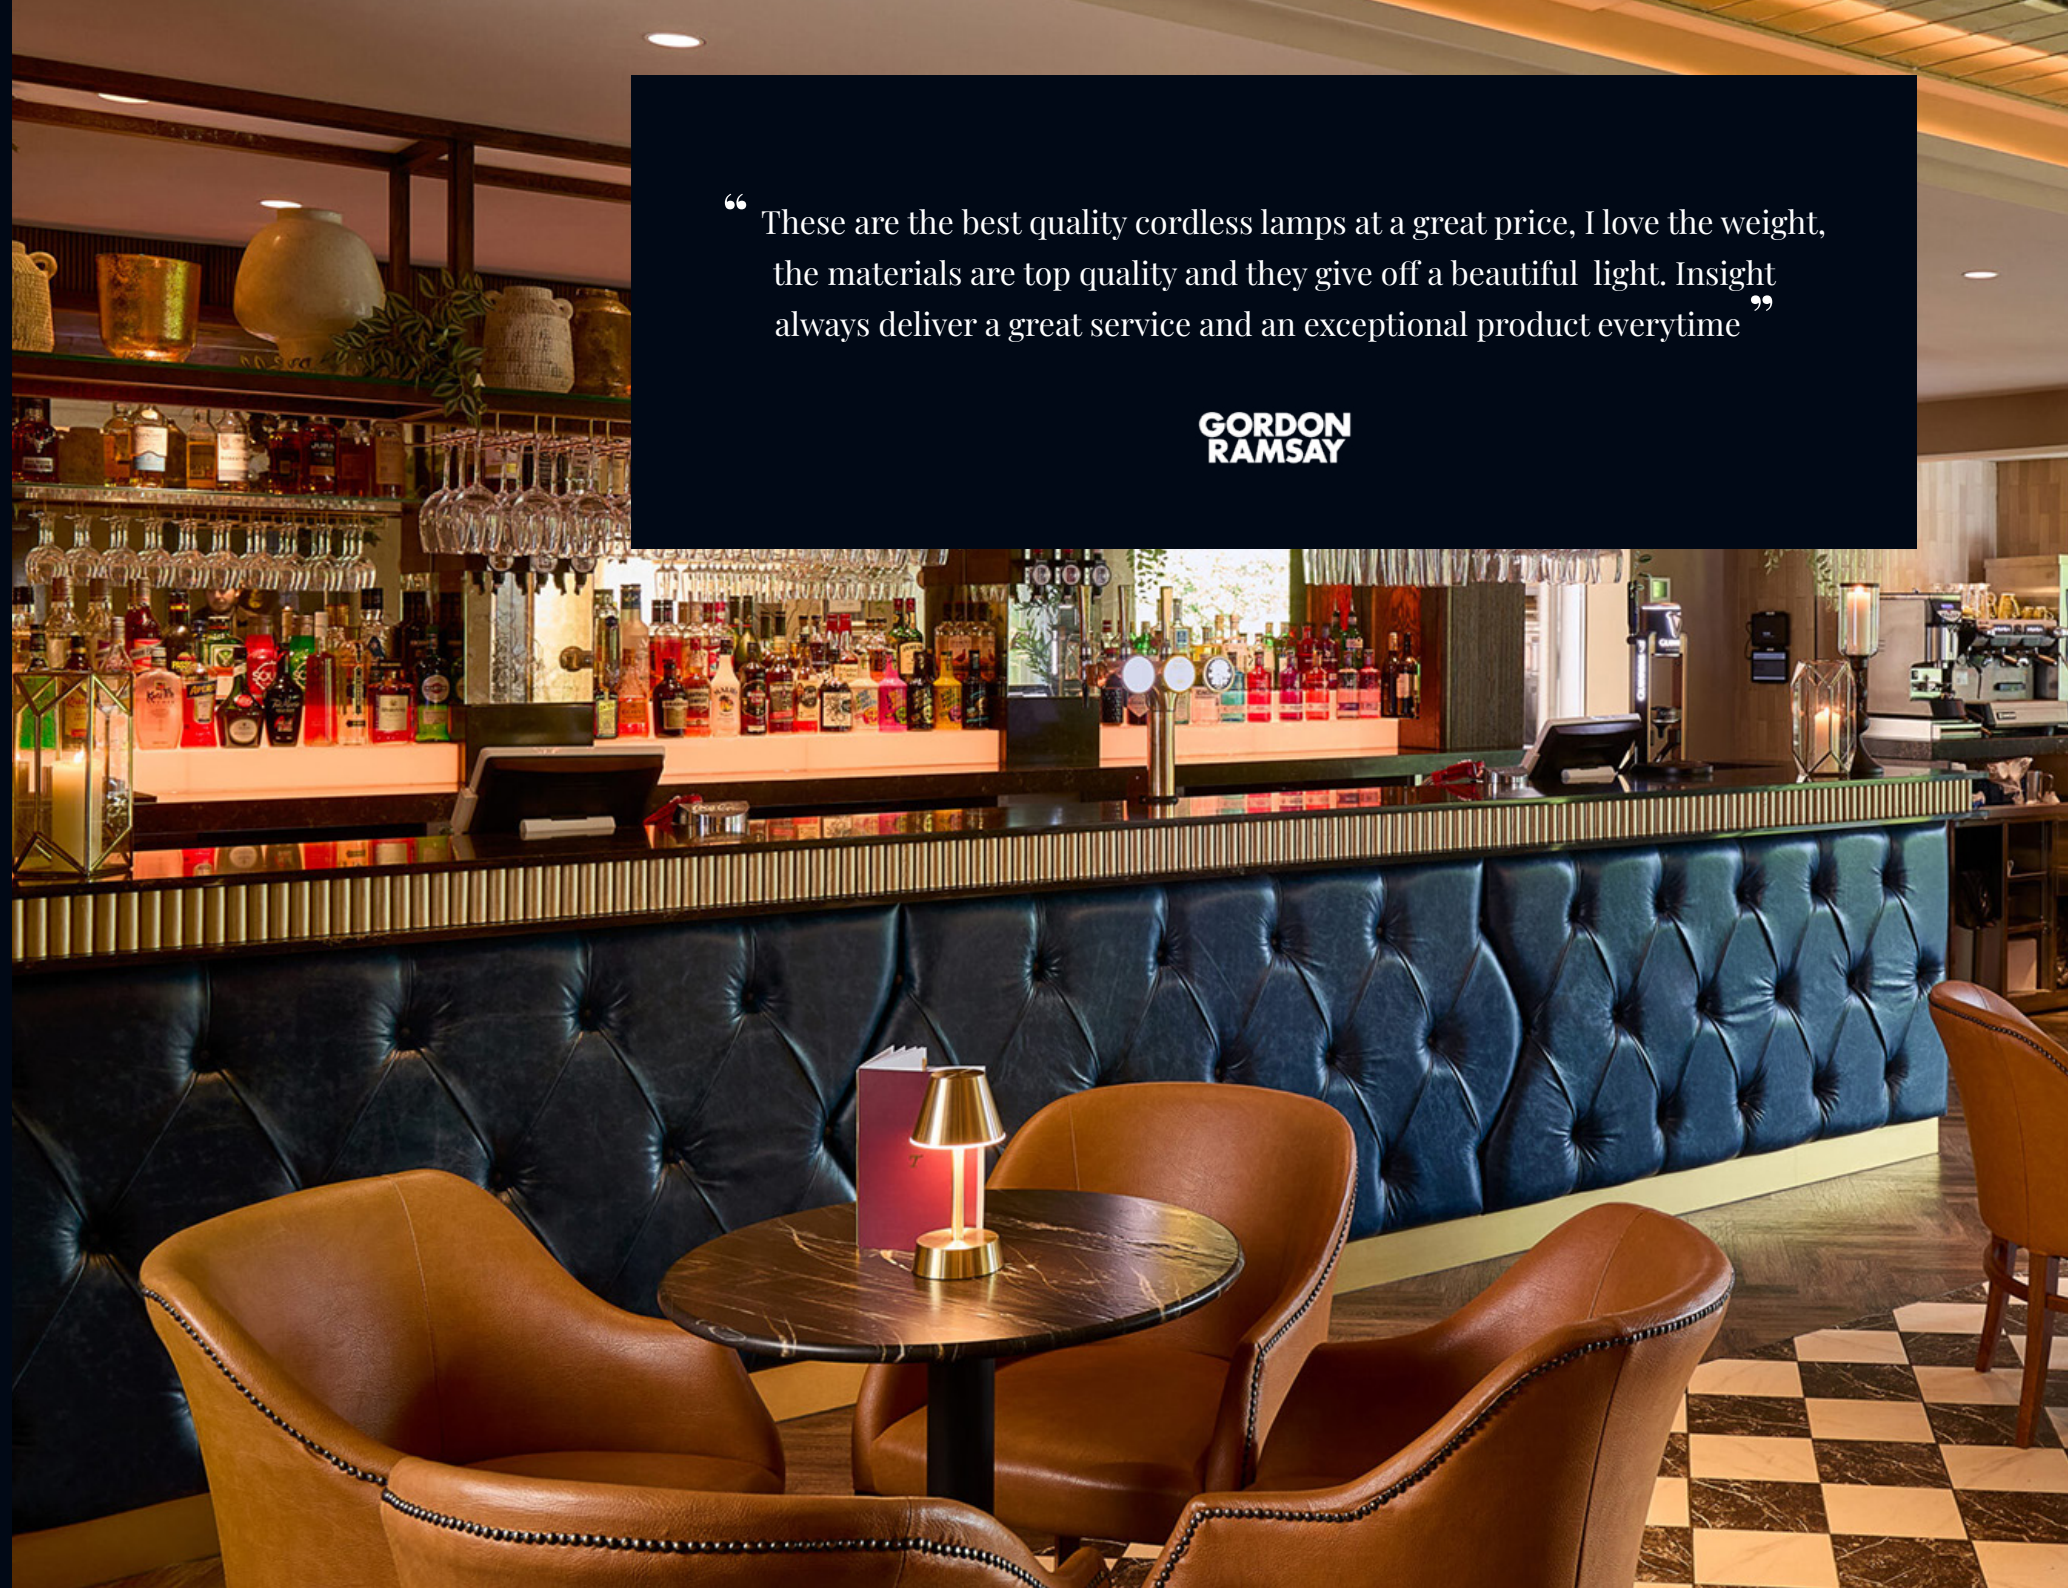

Select from a variety of recharging options—from a single base to a 24-lamp charging trolley. Simply dock and qi wirelessly recharge your lamps—no clutter, no cables, just effortless convenience.

Global Reach, Personal Service

With clients in over 100 countries, our team delivers cordless lamps seamlessly to the world's finest hotels, restaurants, and residences.

“These are the best quality cordless lamps at a great price, I love the weight, the materials are top quality and they give off a beautiful light. Insight always deliver a great service and an exceptional product everytime”

**GORDON
RAMSAY**

Illuminating unforgettable
experiences across the globe.

Trusted by the world's most *prestigious* hotels & restaurants

Since 2012, Insight Cordless Lighting has become the lighting partner of choice for many of the world's leading hospitality groups. Our cordless table lamps are trusted by hoteliers, restaurateurs, designers, and operators who demand excellence in both design and performance. We are proud to supply our collections to an extensive portfolio of international brands, here are a few:

Compliance:	UKCA, CE, UL, ROHS

*2000K and 2400K only available from Spring 2026 with dedicated RF remote.

Sustainable, *Not Disposable*

We are committed to sustainability by designing lamps that can be serviced, not discarded. Most Insight models use modular components — meaning parts such as batteries, lamp parts, or diffusers can be replaced without the need to purchase an entirely new unit. This not only extends product life but also reduces waste and lifetime costs for our customers.

Qi Charging Trolley

CHARGES 24 LAMPS

Model No:	90224-Qi
Material:	ABS Plastic
Dimensions:	W450mm x L650mm x H900mm
Weight:	12kg
Capacity:	24 lamps
Charge time:	<9 hours
Input Voltage:	100V - 240V
Output Voltage:	12V
Output Current:	0~26.7A
Protection:	Short circuit / Overload / Over voltage / Over temperature
Compliance:	UKCA, CE, UL, ROHS

Qi Hex Charging Pad

CHARGES 6 LAMPS

Model No:	90206-Qi
Material:	ABS Plastic
Dimensions:	W290mm x L435mm x H17mm
Weight:	0.600kg
Capacity:	6 lamps
Charge time:	<9 hours
Input Voltage:	100V - 240V
Output Voltage:	12V
Output Current:	0~4A
Protection:	Short circuit / Overload / Over voltage / Over temperature
Compliance:	UKCA, CE, UL, ROHS

Qi Charging Pads

CHARGES 1-2 LAMPS

Model No:	90202-Qi
Material:	ABS Plastic
Dimensions:	W290mm x L145mm x H17mm
Weight:	0.200kg
Capacity:	2 lamps
Charge time:	<9 hours
Input Voltage:	100V - 240V
Output Voltage:	5V / 12V
Output Current:	0~4A
Protection:	Short circuit / Overload
Compliance:	UKCA, CE, UL, ROHS

Model No:	90203-Qi
Material:	ABS Plastic
Dimensions:	W145mm x L145mm x H17mm
Weight:	0.100kg
Capacity:	1 lamp
Charge time:	<9 hours
Input Voltage:	100V - 240V
Output Voltage:	5V / 12V
Output Current:	0~4A
Protection:	Short circuit / Overload
Compliance:	UKCA, CE, UL, ROHS

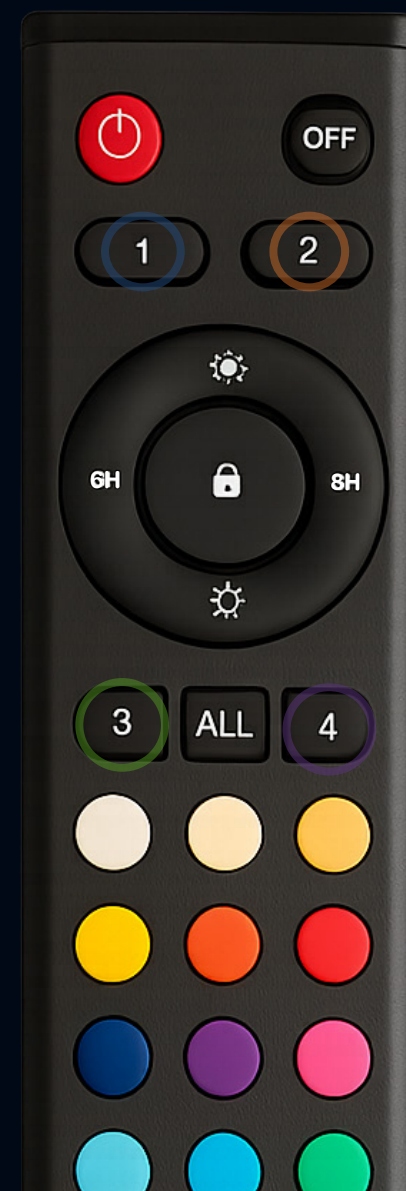

Remote Controls

Model No:	90201-RF
Material:	ABS Plastic
Dimensions:	W52mm x L85mm x H5mm
Weight:	0.010kg
Control Capacity:	Unlimited lamps
Control Proximity:	30+ meters - With obstruction
Technology	Radio Frequency (RF)
Battery Type:	AAA (Not included)
Features:	On/Off Brightness Adjustment Colour Options 2000K / 2400K / 2700K 4 Lighting Zones ECO Smart Mode (Timer) Lock Function

Model No:	80201-IR
Material:	ABS Plastic
Dimensions:	52mm x L85mm x H5mm
Weight:	0.100kg
Control Capacity:	Unlimited lamps
Control Proximity	5 meters - No obstructions
Technology:	Infra-red (IR)
Battery Type:	CR2025 3V (Included)
Features:	On/Off Brightness adjustment Colour options 2700K

Intelligent *Lighting Zones*

Group lamps into Lighting Zones and apply tailored Scenes for each space. Lighting Zones allow multiple lamps to be grouped into defined areas, enabling independent control of brightness, colour temperature, and on/off status per zone.

Each zone can be tailored to a specific area within a venue—such as dining rooms, bar counters, terraces, private suites, or outdoor spaces—providing seamless operational control.

Key Features:

- Assign lamps to individual Lighting Zones
- Independent control per zone
- Supports multi-zone venues and large installations
- Ideal for hospitality, marine, and residential environments
- Compatible with RF & remote-based control systems
- Zones remain stored within the system for daily use

Operating Modes

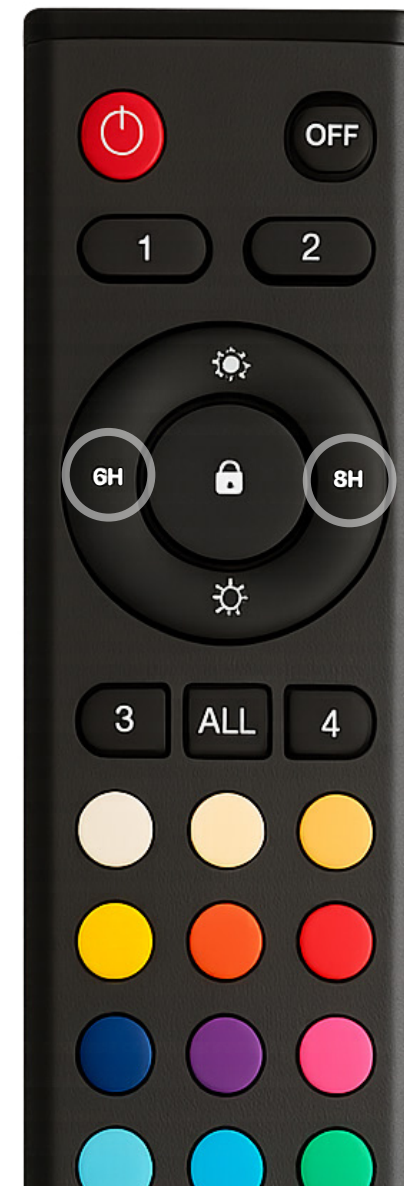

6-Hour Eco Smart Mode (6H)

- Lamp illuminates for 6 hours
- Automatically switches off for 18 hours
- Cycle repeats continuously until cancelled

8-Hour Eco Smart Mode (8H)

- Lamp illuminates for 8 hours
- Automatically switches off for 16 hours
- Cycle repeats continuously until cancelled

Modes are selected directly via the dedicated 6H or 8H button on the remote control.

Eco Smart *Mode*

Eco Smart Mode is an intelligent automatic on/off function designed specifically for hospitality environments, allowing cordless table lamps to remain permanently on tables while optimising battery health and operational efficiency.

Once activated via the remote control, lamps will automatically illuminate for service and switch off after a predefined period—removing the need for daily manual switching or unnecessary recharging routines.

Key Benefits

- Automatic on/off operation aligned with service hours
- Lamps remain on tables at all times
- Reduces unnecessary charging cycles
- Supports long-term battery health and performance
- Ideal for restaurants, hotels, bars, yachts, and event spaces
- Cycle continues daily until manually cancelled

Dedicated Support for *Hospitality* Professionals

At Insight Cordless Lighting, we understand that in the hospitality industry, every detail matters — and lighting is no exception. Our cordless table lamps are designed and engineered for long-term performance in demanding environments such as restaurants, hotels, and luxury venues. However, with continuous daily use, maintenance and occasional servicing may be required to ensure your lamps continue to perform perfectly and look their best.

Our dedicated servicing and repair programme provides a cost-effective, sustainable way to keep your Insight lamps operating at peak condition for years to come. Whether your lamps require new battery modules, updated electronics, replacement shades, or repairing the construction, our trained technicians can assist quickly and efficiently.

How It Works

- **Contact our Service Team** – Email our dedicated support department with the lamp model, your order number, and description of the issue.
- **Assessment** – We'll guide you through basic diagnostics and provide a repair or replacement quotation.
- **Return Service** – Depending on your location and volume, we can arrange collection, or direct shipment of parts.
- **Return to Service** – Lamps are tested, cleaned, and returned ready for immediate use.
